Potable water layflat hose

12
MONTH
WARRANTY

IDEAL FOR

- Maintaining fresh water supply
- Rapid connection for burst or other emergency use
- Pumping water over long distances
- Compact transport on trailer or water truck

Aqualine is a high-quality layflat hose for use with potable water. It is manufactured by weaving a textile reinforcement of high-tensile polyester and extruded with potable water-approved polyurethane. This flexible hose also has good resistance to abrasion and can withstand moderate traffic.

Designed to be used as a temporary water bypass hose, **Aqualine** is ideal for urban use. Assemblies typically cut into 9 m lengths are fitted with T-piece couplings at each end. These couplings allow homes to be connected with fresh drinking water while pipe renewal or refurbishment works take place.

Proudly manufactured in Australia by Crusader Hose, **Aqualine** has a high-pressure rating and can be rolled up flat for convenient transportation and storage; 350 m can easily be rolled up onto a drum and deployed quickly. It is ideal in times of emergency.

Aqualine is made in a large range of diameters from 40 mm to 152 mm and is available in continuous lengths of up to 350 m. Each roll is fully tested at our factory prior to despatch. Some minimum order quantities may apply.

FEATURES

- ✓ Compact and transportable for emergency water connections
- ✓ Bypass hose for mains renewal
- ✓ Long-distance water pumping
- ✓ Potable water approved AS/NZS 4020
- ✓ Australian Made

TECHNICAL DATA

Diameter (ID)	40 mm	51 mm	64 mm	76 mm	102 mm	152 mm
	1.5"	2"	2.5"	3"	4"	6"
Max. working pressure*	2000 kPa	2000 kPa	2000 kPa	2000 kPa	2000 kPa	1700 kPa
Min. burst pressure	4000 kPa	4000 kPa	4000 kPa	4000 kPa	4000 kPa	3500 kPa
Weight/m	0.5 kg	0.6 kg	0.7 kg	0.8 kg	1.0 kg	1.8 kg
Avg. single wall thickness	2.2 mm	2.4 mm	2.6 mm	2.7 mm	3.2 mm	4.0 mm
Part #	HNA040XUA	HNA051XUA	HNA064XUA	HNA076XUA	HNA102XUA	HNA152XUA

*Dependent on maximum working pressure of attached couplings if lower.
